New Video from Dove - Eating Disorders

Over the years Dove have released a number of videos in relation to the negative effects of social media, particularly to girls. Two years ago there was the [Reverse Selfie](#) which could be useful for a conversation starter in school or at home. Their newest video is about eating disorders and as with previous videos it is all about getting the conversation started. But given the nature of the video I would advise caution, it is really hard hitting (emotionally). You can find the video on YouTube [HERE](#). I would strongly advise having a few tissues to hand!
