

Willow Homework Menu – Summer Term

P.E.

Get active this term!
As the weather improves,
get outside and get moving!

Go on a bike ride, join in a park run, practice your new skipping skills or have fun swimming.

You could even start your day with a BBC Supermovers workout!

<https://www.bbc.co.uk/teach/supermovers>

You could record what you're doing in an exercise diary. Fill it with drawings and writing about your physical activity and share it with the class.

Reading and Spelling

Practice reading and spelling words with the vowel sounds below. There are some example words here but your adults can think of lots more to challenge you and maybe even have a quiz!

oo ee oa ai oi or au ou ea ew aw

boom teeth float rain boil form haunt found teach flew lawn

a_e i_e o_e u_e e_e

cake nice home brute these

igh air ear

sight fair dear

Christian Values Curiosity and Trust

Think of something you are really curious about, maybe something to do with the world around you, nature, faraway places, things that might seem strange to you, or skills you would like to learn. Work with a trusted adult to ask or even write down the questions you want to find out the answers to.

Who? What? Where? When? Why? How?

With adult help, research your area of curiosity, using the internet, books, or first-hand experience.

Maths

There are lots of ways you can practice your maths skills to help grow your brain and improve your confidence in maths for example;

Use Times Tables Rock Stars to practice your times tables and division skills.

Play with money and count in 2p's 5p's and 10p's or play shops by adding prices to your toys.

Make arrays using sets of coins and write the corresponding multiplication facts or even play 'hit the button':

<https://www.topmarks.co.uk/maths-games/hit-the-button>

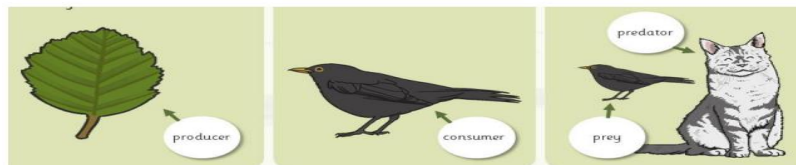

Science

Watch the BBC science clip about food chains:

<https://www.bbc.co.uk/teach/class-clips-video/science-ks1-the-food-chain/zbr8d6f>

Draw your own example of a food chain.
Use the food chain below as an example.

Can you label the producer, consumer and predator?
How many examples can you create?

Design & Technology: Food and Nutrition

Learn how to make a smoothie or fruit salad. Maybe you could include some of the new tropical fruits like those we have been learning about.

Write a recipe, write a review and draw a picture of your creation to share with the class.
